Description

TERMS OF REFERENCE

Procurement of Training Provider/ Professional Services

I. PROJECT TITLE : INTRODUCTION TO CLOUD COMPUTING AND VIRTUALIZATION

II. DATE/VENUE : November 23-25, 2022 (3 half-days)/ Online session

III. BACKGROUND/ RATIONALE

Cloud computing creates new paradigms of information architecture and core business models of organizations across different industries. Today's organization must be able to quickly adapt to the market needs and hence most of them started to replace physical computers (servers and desktops) with "virtual machines". This 12-hour course curriculum is designed for beginners and this training will enable the participants to understand various concepts around cloud computing and how to apply them in an organization's I.T. landscape.

Course Objectives:
At the end of the program, the participants are expected to:
• Understand the common terms and definitions of virtualization and cloud computing;
• Understand the technical capabilities and business benefits of virtualization and cloud computing and how to measure these benefits;
• Describe the landscape of different types of virtualization and understand the different types of clouds;
• Compare and contrast various Cloud Storage and databases;
• Comprehend the concepts of Global Infrastructure and Cloud Security and demonstrate how Cloud Computing is applied in Modern I.T. and Government Systems

IV. MINIMUM REQUIREMENTS FOR THE TRAINING PROVIDER

• Must be a recognized learning and development institution/trainer by the Civil Service Commission (CSC) and/or Technical Education and Skills Development Authority (TESDA) or at least with certificate of recognition as information technology solutions provider to the top corporations and government institutions;
• With minimum of 2-3 years' experience in the field of information technology and provider of cloud computing solutions;
• Provider must be a Filipino citizen;
• Must be able to deliver the following objectives:
a. To define the basic and common terms of virtualization and cloud computing
b. To apply the concepts of Global Infrastructure and Cloud Security
c. Understand the technical capabilities and business benefits of virtualization and cloud computing

V. SCOPE OF WORK/ ITEMS/ DELIVERABLES

The Training and Development Division is looking for a professional services/training provider intended for the DOT Employees for the said program:
