Description

TECHNICAL SPECIFICATIONS
PROCUREMENT OF A GROUND HANDLING SERVICES FOR THE
PRODUCT AUDIT OF SELECTED FARM TOURISM SITES

- I. Project Title : Product Audit of Selected Farm Tourism Sites in Region I at La Union and Pangasinan, and Region 7 at Bohol
- II. Project Date : July 25-28, 2023 and August 9-12, 2023
- III. Background

RA 9593, also known as the Tourism Act of 2009, mandates the Department of Tourism to harness the potential of tourism as an engine for sustainable growth. Similarly, the National Tourism Development Plan 2016-2022 recognizes farm tourism development as vital in pursuing sustainability and inclusive growth. Further, RA 10816, or the Farm Tourism Development Act of 2016, advocates sustainable tourism and gives value to the combined roles of agriculture and tourism in local communities' economic, environmental, and socio-cultural development. Recognizing the potential of farm tourism in the country, the Department continues to take initiatives in establishing farm tourism to be at par with other successful tourism industries.

Since farm tourism is a relatively new product, little has been accomplished and documented. However, since the passing of RA 10816, the Department, through its Farm Tourism Program, has initiated projects and activities to set the direction of farm tourism in the country. Partnerships and collaborations with other government agencies and

non-government organizations are being built and encouraged to attain the program's goals. In support of attaining the vision for farm tourism in the country, the Department proposes to determine the current status of farm tourism across all regions, ongoing initiatives of regional farm tourism associations, and the issues and concerns hindering the development of farm tourism in the community sectors.

In line with this, the Department intends to conduct a series of Product Audits of selected farm tourism sites mainly to assess the current situation of farm tourism sites post-pandemic and consult with stakeholders regarding the major issues and concerns affecting the development of farm tourism within the regions. Through this project, invited stakeholders or farm tourism operators can build networks and acquire best practices and lessons learned from their fellow stakeholders from other regions. The Product Audit could serve as a learning experience for planning purposes.

IV. Objectives:

The objectives of the activity are as follows:

- To assess the location, services, activities, and establishments of accredited farm tourism camps as well as potential and developing farm tourism camps;
- To evaluate farm tourism camps' compliance with new normal health protocols and standards;
- To orient stakeholders about the Joint Memorandum Circular 2020-002 between the DOT and DA, specifically the rules and regulations governing the accreditation of farm tourism camps;
- To consult stakeholders about developing farm tourism in their respective areas and identify common issues and concerns, and
- To identify peripheral activities and/or destinations within the vicinity of the farm tourism camp for possible inclusion in tourism circuits within the Region.

V. Minimum Requirements:

- Must be a DOT-accredited tour operator;
- Must be PhilGEPS-accredited;
- Must be willing to provide services on a send-bill arrangement;
- Must provide one facilitator to handle and coordinate with the concerned region on all the arrangements related with the tour; and
- Must be flexible to changes in the itinerary or other arrangements/requests.
