Procurement of Supplies

I. PROJECT TITLE : Disaster Risk Reduction Safety Jackets

II. BACKGROUND/ RATIONALE

The Philippines, located along the boundary of major tectonic plates or the so-called Ring of Fire, is ranked third in the 2018 World Risk Index of the most disaster-prone countries in the world. Every year, it experiences almost all forms of disasters such as typhoons, earthquakes, and volcanic eruptions. Additionally, it faces numerous complex emergencies due to armed conflict, fire, and other man-made disasters.

Procuring safety jackets is imperative to prioritize the well-being of our personnel. These jackets provide essential protection by enhancing visibility, ensuring our team members remain easily identifiable in various working environments. The safety jackets' reflective features and high-visibility color contribute significantly to accident prevention, fostering a safer workplace and reducing the risk of incidents. Prioritizing the procurement of safety jackets demonstrates our commitment to the health and safety of our employees, ultimately promoting a culture of responsibility and care within our organization.

III. SCOPE OF WORK/ ITEMS/ DELIVERABLES

The Training and Development Division is looking for a legitimate supplier for a safety jacket intended for the Disaster Risk Reduction Management Team.
