<b>Lot No. 1 – Desktop</b>  <b>IT Supplier Requirement for Desktop</b>	<p><b>1. From Beacon Solutions, Inc.</b></p> <p>Page 60, Item No. 2. – List of authorized service centers in all regions</p> <p>We humbly request that requisite no. 2 be stricken-off, or at least relaxed in view of its being no longer necessary or redundant with requisites nos. 4 and 5 in place which requires the more practicable service process of having on-site support.</p> <p>With this, in lieu of Item No. 2, we request that compliance with Item nos. 4 and 5 be acceptable as being more than sufficient responses to cover the purpose of the authorized service centers. Furthermore, it can be misconstrued that you are requiring a service center in all regions, which is probably not the intent, and such practice is not necessarily cost efficient and practiced in industry</p>	<p><b>Request Granted</b></p> <p><b>Please see and use the attached revised Section VII. 	<p><b>2. From Advance Solutions, Inc.</b></p> <p>(Page 60, Item Nos. 4 &amp; 5)</p> <p>May we request that you will consider or allow authorized service engineer instead of manufacturer who will serve the onsite support? Provided that the said engineer will carry a certification from the manufacturer that he/she is certified to do a service and support for our supplied Desktop computer?</p>	<p><b>Request Denied</b></p>
<b>Lot No. 1 – Desktop</b>  <b>Technical Specifications</b>	<p><b>3. From Advance Solutions, Inc.</b></p> <p>(Page 61)</p> <p>May we request if you will consider a monitor having an 18.5" Active display? This is for the reason that some manufacturers uses the active display size as their literature description instead of including the bezel thickness.</p>	<p><b>Request Granted</b></p> <p><b>Please see and use the attached revised Section VII. Technical Specifications</b></p>

	<p><b>4. From Advance Solutions, Inc.</b></p> <p>(Page 61)</p> <p>We would like to clarify that the “Tray Load DVD Drive (Read and Write)” and “Bezel with Slim Optical Drive (Read and Write)” requires that the desktop should be equipped with a single DVD writer?</p>	<p><b>Yes, there is only one (1) DVD Drive. The project officer only specified that the tray load DVD Drive (read and Write) must include the bezel and the Slim optical drive.</b></p> <p><b>Please see and use the attached revised Section VII. Technical Specifications</b></p>
	<p><b>5. From Advance Solutions, Inc.</b></p> <p>(Page 61)</p> <p>We would like to clarify if you will allow other desktop computer form factor other than “Small Form Factor”? This is for the reason that in order for us to comply with your minimum 290W PSU (Power Supply Unit), a Mini-Tower or Micro-Tower or Tower Form Factor of desktop computer can only comply with at least 290W PSU or higher.</p>	<p><b>Request Denied</b></p>
	<p><b>6. From Lenovo Philippines</b></p> <p>(Page 61)</p> <p>Desktop PSU normally is up to 260W only. 290 Wand up are used on workstations or server-grade PCs already. Looking at the specs of your requirement, a normal DT can comply.</p> <p>Could you please relax the PSU to 260W?</p>	<p><b>Request Denied</b></p>
<p><b>Lot No. 2 – Laptop</b></p> <p><b>IT Supplier Requirements for Laptop</b></p>	<p><b>7. 	<p><b>10. From Lenovo Philippines</b></p> <p>(Page 63) – Ports: 1 x SD 3.0 Memory Card Reader</p> <p>Most laptops today have slim design and are unable to be built with an SD card reader. Can you please consider MicroSD card reader?</p>	<p><b>Request Denied</b></p>
	<p><b>11. From Advance Solutions, Inc.</b></p> <p>(Page 63)</p> <p>May we request if you will allow or consider “Security lock slot” instead of “noble wedge”? Security lock slot would be more generic naming that we can use which will have a purpose to allow a laptop to be secured by using a corresponding security cable. “Noble Wedge” and “Kensington” are example of brand names with the same purpose in securing the laptop with the use of their corresponding cables</p>	<p><b>Request Granted</b></p> <p><b>Please see and use the attached revised Section VII. Mobile tablet – Page 65</p> <p>It states that accessories must have at least sleeve for mobile device.</p> <p>The mobile tablet that we are offering comes with smart cover. We request you to please consider the smart cover in place of the sleeve.</p>	<p><b>Request Granted</b></p> <p><b>However, we will retain the sleeve and add the smart cover.</b></p> <p><b>Please see and use the attached revised Section VII. Technical Specifications</b></p>
	<p><b>14. From Advance Solutions, Inc.</b></p> <p>#2. Printer (All in One) – Page 66</p> <p>May we request if you will allow or consider lower print speed for color, like 18ppm? This is for the reason that print speed in color settings requires more pass to apply cyan, magenta and yellow inks compared to black printing alone.</p>	<p><b>Request Granted</b></p> <p><b>Please see and use the attached revised Section VII. Technical Specifications</b></p>

	<p><b>15. From Advance Solutions, Inc.</b></p> <p>#3. Compact/Portable Scanner – Page 68</p> <p>May we request if we can lower down the scanner memory capacity to 64mb? This is for the reason that compact scanners do not save the scanned document on their internal memory thus it needs a client PC to save the output directly.</p>	<p><b>Request Denied</b></p>
<p><b>Bidding Documents</b></p>		
<p><b>Use of Digital Signature</b></p>	<p><b>16. From Beacon Solutions, Inc.</b></p> <p>For the documents that need to be notarized, our Legal Counsel is willing to notarize the necessary documents provided that we seek your approval on whether you will honor digital signatures of Beacon signatories in the legal documents. In view of the ECQ Lockdown, it is a challenge for our signatories to actually sign, hence we resort to attaching their digital signatures. Per our Legal Counsel, it is the Procuring Entity's decision if E-signatures are acceptable or not. May we know your view on this?</p>	<p>For the meantime, we are obliged to implement the existing rules and regulations where the use of digital signature in the physical submission of bid documents is not allowed. In case there are changes in the regulations, we will issue another bid bulletin.</p>
<p><b>Submission of Bidding Documents</b></p>	<p><b>17. From Pronet Systems Integrated Network Solution, Inc.</b></p> <p>For Class "A" documents like business permit, FS, tax clearance, etc., can we submit the previous/expired certificates since the documents are not yet updated because of the ECQ. Do I need to submit letter regarding this?</p>	<p>Bidders may submit a valid Certificate of PhilGEPS Registration (Platinum Membership) in lieu of the Class "A" documents.</p> <p>In case, any of the Class A documents are not valid and current at the time of the submission of PhilGEPS Platinum Registration, bidders will be required to submit the valid and current documents during post – qualification.</p>
	<p><b>18. From Pronet Systems Integrated Network Solution, Inc.</b></p> <p>For documents to be submitted like certificates, it should be addressed to the BAC Chairman, Asec. Roberto P. Alabado III?</p>	<p>Yes, documents must be addressed to the BAC Chairman</p>
<p><b>SLCC Computation</b></p>	<p><b>19. From Pronet Systems Integrated Network Solution, Inc.</b></p> <p>For the computation of SLCC and ON-GOING, the amount will be based on the per lot also?</p>	<p>It is only on SLCC that we require at least 50% of the ABC of the lot or lots bid for.</p>
